Neurotransmitters

11-Dehydrocorticosterone	11-Deoxycortisol	17a-Hydroxypregnenolone
17a-Hydroxyprogesterone	18-Hydroxycorticosterone	Acetylcholine Chloride
Acetylcholinesterase	Acetyl-CoA	Activin
Adenohypophyseal Hormones	ADH (Vasopressin)	Adrenalinum
Adrenocorticotrophic Hormone (ACTH)	Adrenocorticotrophin	A-Endorphin
Aldosterone	Androstenediol	Androstenedione
Androsterone	Angiotensin II	B-endorphin
Bombesin	Calcitonin	cAMP
Cholecystokinin	Cholesterol (HDL)	Cholesterol (LDL)
Cholesterol	Chorionic Gonadotropin	Cortiscosterone
Cortisol	CRH (Corticotrop. Rel. Horm.)	DHEA (Dehydroxyepiandrosterone)
Dihydrotestosterone	Diiodotyrosine	Dopamine
Epinephrine	Epogen	Erythropoietin
Estradiol	Estradiol Benzoate	Estradiol Valerate
Estriol	Estrone	Etiocolanolone
Follicle stimulating hormone (FSH)	Follicular Gonadotropic Releasing Peptide	GABA
GHRH (GH Releasing Hormone)	Glucagon	Glutamate
Gonadotropin	Growth Hormone (GH)	Hydrocortisone
Insulin	Kryptopyrrole	L-Dopa
Leucine Enkephalin	L-Glutamic Acid	L-Glutamine
LHRH (Luteinizing Releasing Hormone)	Luteinizing hormone (LH)	Malvin
Melanin	Melatonin	Methionine Enkephalin
MIH (MSH Inhibiting Hormone)	Neurohypophyseal Hormones	Neurotensin
Nitric Oxide	Norepinephrine	NT - Choline
NT - Histamine	Orthomethyl Serotonin	Oxytocin
Parathyroid Hormone - Parathormone - Parathyrin (PTH)	Phenylethylamine	Pregnenolone
Progesterone	Proinsulin (precursor)	Prolactin (PRL)
Relaxin	Serotonin	Somatostatin
Substance P	T2 - Diiodothyronine	T3 - Triiodothyronine

T4 - Thyroxine

Taurine

Testosterone

Thymomodulin

Thymopoeitin

Thymosin

Thyroglobulin

Thyroid Stimulating Hormone (TSH)

Thyrotrophin Releasing Factor-TRH

Thyrotropin Releasing Hormone (TRH)

Tryptophan (neurotransmitter)

Vasoactive Intestinal Peptide

Vasopressin

Vasotocin

Vit B-6 (Pyridoxine)
